

## **Presentation Introduction (B1)**

Good morning, everyone,

My name is Nico Rihrer, and I am a student at a college of engineering and construction.

Today, I would like to talk about a very interesting topic: building big and modern architecture.

In my presentation, I will explain why timber is an important building material, give some examples of wooden skyscrapers, and talk about the future of construction.

I hope you will find this topic interesting. Thank you for your attention.

---

## **Einfachere Version (falls du nervös bist)**

Hello,

My name is Nico Rihrer. I am a student of engineering and construction.

Today I want to talk about building big.

I will explain timber, give examples, and talk about the future.

Thank you for listening.
