TEIL 3: READING (VERSTEHEN)

Text:

Today, people are more connected than ever before. We use the internet, social media, and smartphones to communicate. This helps us learn and share information.

However, there are also problems. People spend too much time online and sometimes feel lonely. It is important to find a balance between online and real life.

Fragen:

1. Why are people more connected today?
 2. What are two advantages?
 3. What is one problem?
 4. What should people do?

Email to Editor (Beispiel)

Dear Editor,

I am writing about your article on the interconnected world.

In my opinion, it is very positive. Firstly, people can communicate easily. Secondly, students can learn online.

However, there are also problems. People spend too much time online.

For example, many young people use social media all day.

To sum up, the internet is useful, but we must use it carefully.

Yours sincerely,

Karin
